The Scarborough-Trigg Heritage Walk celebrates the Centenary of Federation by highlighting stages and events in the past 100 years of the Scarborough-Trigg area. An older natural history is described in the Trigg Bushland Reserve loop.

The walk recognises the Nyungah people's prior occupancy and custodianship of this land. The local Nyungah people in this coastal area are known as the Bibleman (or Pibleman). They occupied the region between Pinjarra, Fremantle, Perth and Moore River.

## Centenary of Federation

The Commonwealth of Australia celebrated 100 years in 2001. It was on 1 January 1901 that six colonies came together in a federation, embarking Australia on its journey to become a single nation.

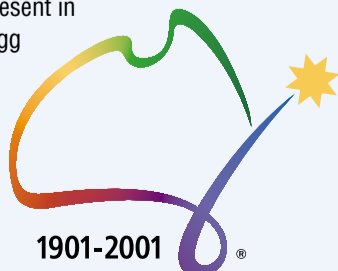

Centenary of Federation is a time to remember the pioneers of our constitution and democracy, to value the rich culture and heritage of Australia's indigenous peoples and to recognise the contributions of people from all over the world who have settled in this country.

The walk will give the Scarborough and Trigg community a lasting legacy by which future community members can remember our nation's 100th anniversary celebrations.

Enjoy your walk!
