

Tender No:	78986
Tender Title:	Disposal Construction and Inert Waste
Tender Description:	The City of Stirling (City) invites tenders from qualified contractors for the disposal of construction and inert waste. The City produces construction waste (non-household solid waste) through its works program for construction and maintenance works on its roads, drainage, sump drainage area, car parks and parks. The City also accepts inert waste dropped off at the Recycling Centre Balcatta by residents and small contractors. The Inert waste may contain small percentages of green waste, timber, plastic, metal straps and general builder's rubble. The stockpile is monitored by City employees to ensure there is no contamination of super six fencing or asbestos. The City undertakes a daily program of sweeping across all streets located within the City's boundaries at least once per year. This program produces daily sweeper tailings which may have contaminants. The Contractor will be responsible for testing the sweeper tailings for contaminants and transport and dispose of the contaminated sweeper tailings to a nominated class 3 landfill site.
