

Living safely starts locally

Feel safe. Live safely.

Living Safely, an initiative of Locally-led Stirling, brings people together to help create safer, stronger and more connected neighbourhoods.

Join us this November for a series of free events across Doubleview.

Explore topics including responsible pet ownership, vehicle safety, laneway safety and seasonal safety awareness.

Learn practical safety tips, discover local services, connect with neighbours and share what matters most to you.

Together, we're building a safer community.
