Building a connected and accessible neighbourhood

A new footpath is coming to your street!

The City of Stirling is dedicated to creating a connected and accessible community through a network of pathways and cycleways.

Footpaths are a vital part of creating a safe, healthy, and connected neighbourhood, and we're excited to bring this improvement to your street!

What to expect from the City of Stirling:

Clear information

We will provide timely information around the construction process, timelines and what to expect.

Minimal disruption

We will protect street trees, reinstate any affected reticulation systems, remove any debris and restore the area around the footpath.

Ongoing maintenance

We will manage the ongoing maintenance of the footpath.

Address concerns

We value your feedback and encourage you to submit your questions to us either online at www.stirling.wa.gov.au/enquiries or call us on (08) 9205 8555.

Why footpaths matter:

Safety

Ensures safety for children, the elderly, parents with prams and those with mobility challenges.

Independence

Helps the community move around more freely and safely.

Health

Encourages walking and cycling, leading to healthier lifestyles and reduces traffic on our roads.

Community

Brings neighbours together and fosters a sense of community.

Pets

Provides a safe space for pets to walk on a lead, away from vehicle traffic.

Scan the QR code for more information about the City's new footpath program.
