Local Planning Scheme No.3

PREAMBLE

This Town Planning Scheme of the City of Stirling consists of this Scheme Text and the Scheme Maps. The Scheme Text should be read with the Local Planning Strategy for the City.

Part 2 of the Scheme Text sets out the Local Planning Framework. At the core of this Framework is the Local Planning Strategy which sets out the long-term planning directions for the Council, applies State and regional planning policies and provides the rationale for the zones and other provisions of the Scheme. In addition to the Local Planning Strategy, the Framework provides for Local Planning Policies which set out the general policies of the Council on matters within the Scheme.

The Scheme divides the Council district into zones to identify areas for particular uses and identifies land reserved for public purposes. Most importantly, the Scheme controls the types of uses and development allowed in different zones. There are particular controls included for heritage and special control areas. The Scheme Text also sets out the requirements for planning approval, enforcement of the Scheme provisions and non-conforming uses.

INTENTIONALLY BLANK
PART 2 - LOCAL PLANNING POLICY FRAMEWORK

2.1 Scheme Determinations to Conform with Local Planning Strategy

Except to the extent that the Local Planning Strategy is inconsistent with the Scheme, determinations of the Council under the Scheme are to be consistent with the Local Planning Strategy.

2.2 Local Planning Policies

The Council may prepare a Local Planning Policy in respect of any matter related to the planning and development of the Scheme area so as to apply -

a) generally or for a particular class or classes of matters; and
b) throughout the Scheme area or in one or more parts of the Scheme area,

and may amend or add to or rescind the Policy.

2.3 Relationship of Local Planning Policies to Scheme

2.3.1 If a provision of a Local Planning Policy is inconsistent with the Scheme, the Scheme prevails.

2.3.2 A Local Planning Policy is not part of the Scheme and does not bind the Council in respect of any application for planning approval but Council is to have due regard to the provisions of the Policy and the objectives which the Policy is designed to achieve before making its determination.

Note: Local Planning Policies are guidelines used to assist the Council in making decisions under the Scheme. Although Local Planning Policies are not part of the Scheme they must be consistent with, and cannot vary, the intent of the Scheme provisions, including the Residential Design Codes. In considering an application for planning approval, Council must have due regard to relevant Local Planning Policies as required under clause 10.2.
2.4 Procedure for Making or Amending a Local Planning Policy

2.4.1 If the Council resolves to prepare a Local Planning Policy, the Council -

a) is to publish a notice of the proposed Policy once a week for 2 consecutive weeks in a newspaper circulating in the Scheme area, giving details of -

i) where the draft Policy may be inspected;

ii) the subject and nature of the draft Policy; and

iii) in what form and during what period (being not less than 21 days from the day the notice is published) submissions may be made;

b) may publish a notice of the proposed Policy in such other manner and carry out such other consultation as the Council considers appropriate.

2.4.2 After the expiry of the period within which submissions may be made, the Council is to -

a) review the proposed Policy in the light of any submissions made; and

b) resolve to adopt the Policy with or without modification, or not to proceed with the Policy.

2.4.3 If the Council resolves to adopt the Policy, the Council is to -

a) publish notice of the Policy once in a newspaper circulating in the Scheme area; and

b) if, in the opinion of the Council, the Policy affects the interests of the Commission, forward a copy of the Policy to the Commission.

2.4.4 A Policy has effect on publication of a notice under Clause 2.4.3(a).

2.4.5 A copy of each Local Planning Policy, as amended from time to time, is to be kept and made available for public inspection during business hours at the offices of the Council.

a) Clauses 2.4.1 to 2.4.5, with any necessary changes, apply to the amendment of a Local Planning Policy.

2.5 Revocation of Local Planning Policy

A Local Planning Policy may be revoked by -

a) the adoption by the Council of a new Policy under Clause 2.4 that is expressed to supersede the existing Local Planning Policy; or

b) publication of a notice of revocation by the Council once a week for 2 consecutive weeks in a newspaper circulating in the Scheme area.

2.6 Local Planning Policies Made Under Previous Scheme

2.6.1 Where a Local Planning Policy has been adopted in accordance with the requirements of the District Planning Scheme No.2, it shall continue to have effect, and may be amended or revoked as if it were a Local Planning Policy under the current scheme.
2.7 Minor Modifications to a Local Planning Policy [Amd. 45]

2.7.1 Notwithstanding the provisions of Clause 2.4, the Council may adopt minor administrative modifications to a Local Planning Policy without the need of formal public advertising where the modifications do not alter the objectives or standards contained within the Policy.

2.7.2 Clause 2.4.3 applies to a minor modification to a Local Planning Policy.

2.7.3 Modifications to a Local Planning Policy adopted under Clause 2.7.1 have effect on adoption by the Council.

PART 3 - RESERVES

3.1 Reserves

Certain lands within the Scheme area are classified as -

a) Regional Reserves; or

b) Local Reserves.

3.2 Regional Reserves

3.2.1 The lands shown as “Regional Reserves” on the Scheme Map are lands reserved under the Metropolitan Region Scheme and are shown on the Scheme Map for the purposes of the Planning and Development Act 2005. These lands are not reserved under the Scheme.

3.2.2 The approval of the Council under the Scheme is not required for the commencement or carrying out of any use or development on a Regional Reserve.

Note: The provisions of the Metropolitan Region Scheme continue to apply to such Reserves and approval is required under the Metropolitan Region Scheme from the Commission for the commencement or carrying out of any use or development on a Regional Reserve unless specifically excluded by the Region Scheme.

3.3 Local Reserves

“Local Reserves” are delineated and depicted on the Scheme Map according to the legend on the Scheme Map.

3.4 Use and Development of Local Reserves

3.4.1 A person must not -

a) use a Local Reserve; or

b) commence or carry out development on a Local Reserve, without first having obtained planning approval under Part 9 of the Scheme.

3.4.2 In determining an application for planning approval the Council is to have due regard to -

a) the matters set out in Clause 10.2;

b) the ultimate purpose intended for the Reserve.

3.4.3 In the case of land reserved for the purposes of a public authority, the Council is to consult with that authority before determining an application for planning approval.
PART 4 - ZONES AND THE USE OF LAND

4.1 Zones

4.1.1 The Scheme area is classified into the zones shown on the Scheme Maps.

4.1.2 The zones are delineated and depicted on the Scheme Maps according to the legend on the Scheme Maps.

4.1.3 Land delineated on the Scheme Maps which is not classified into a zone or reserve is classified as land with ‘No Zone’.

Note: Typically, land with no zone may include roads, rights of way and pedestrian access ways. Generally, development on such land is for public purposes and is not subject to the provisions of the Scheme. However, from time to time such land may become surplus (such as for road closures) and is amalgamated with the abutting zoned land. In these circumstances, the objective is to facilitate the development of such land in accordance with the standards and requirements of the abutting zoned land to which it has been amalgamated.

4.2 Objectives of the Zones

The objectives of each of the zones are as follows, and are intended to provide the context for development within the respective zones:

b) To ensure the design and siting of development provides a high standard of safety and amenity and contributes towards a sense of place and community.

4.2.5 Hotel Zone
a) To provide for a limited range of entertainment and accommodation related facilities.

c) To ensure that traffic management, road safety, site access, onsite parking, building design and streetscape appearance are not compromised.

4.2.9 Mixed Use Zone
a) To provide for a wide variety of active uses on the street level that contribute to a vibrant and active street which are compatible with residential and other non active uses on upper levels.
b) To facilitate the creation of employment within the area so as to reduce the demand for travel, and enhance the level of self-sufficiency.
c) To ensure a high standard of design that negates issues such as noise, smell and vibration that are related to mixed use developments.
4.2.10 **Private Institution Zone**

a) To provide for a range of privately owned community facilities, and uses that are incidental and ancillary to the provision of such facilities, which are compatible with surrounding development.

b) To ensure that the standard of development is in keeping with surrounding development and protects the amenity of the area.

4.2.11 **Regional Centre Zone**

a) To provide for the full range of shopping, office, administrative, social, recreation, entertainment and community services, consistent with the region-serving role of the centre.

b) To facilitate the creation of employment within the centre so as to reduce the demand for travel, and enhance the level of self-sufficiency within the sub-region.

c) To promote a high degree of accessibility to and within the centre, for users of all modes of transport (bus, rail, private car, cycle and pedestrian) and to avoid fragmentation of commercial development.

d) To enhance pedestrian connectivity within the centre, so as to facilitate movement between sites and from public and private transport nodes.

4.2.15 **Special Use Zone**

To facilitate special categories of land uses that do not sit comfortably within any other zone.
4.3 **Table 1 - Zoning Table**

4.3.1 Table 1 - Zoning Table indicates, subject to the provisions of the Scheme, the uses permitted in the Scheme area in the various zones. The permissibility of any uses is determined by cross reference between the list of use classes on the left hand side of the Table 1 - Zoning Table and the list of zones at the top of the Table 1 - Zoning Table.

4.3.2 The symbols used in the cross reference in the Table 1 - Zoning Table have the following meanings -

- 'P' means that the use is permitted by the Scheme providing the use complies with the relevant development standards and the requirements of the Scheme;
- 'D' means that the use is not permitted unless the Council has exercised its discretion by granting planning approval;
- 'A' means that the use is not permitted unless the Council has exercised its discretion by granting planning approval after giving special notice in accordance with Clause 9.4;
- 'X' means a use that is not permitted by the Scheme.

4.3.3 A change in the use of land from one use to another is permitted, if -

a) the Council has exercised its discretion by granting planning approval;

b) the change is to a use which is designated with the symbol 'P' in the cross reference to that zone in the Table 1 - Zoning Table and the proposed use complies with all the relevant development standards and any requirements of the Scheme;

c) the change is an extension of a use within the boundary of the lot which does not change the predominant use of the lot; or

d) the change is to an incidental use that does not change the predominant use of the land.

Note

1. The planning approval of the Council is required for the development of land in addition to any approval granted for the use of land. In normal circumstances one application is made for both the use and development of land.

2. The Council will not refuse a 'P' use because of the unsuitability of the use for the zone but may impose conditions on the use of the land to comply with any relevant development standards or requirements of the Scheme, and may refuse or impose conditions on any development of the land.

3. In considering a 'D' or 'A' use, the Council will have regard to the matters set out in clause 10.2.

4. The Council must refuse to approve any 'X' use of land. Approval to an 'X' use of land may only proceed by way of an amendment to the Scheme.

City of Stirling Local Planning Scheme No.3

Part 4, Page 8

[Special Beach Development’ Zone in Table 1 Zoning Table Superseded by MRA, Gazetted 2 July 2014]

Addition of a new use “Retail Establishment” in Table 1 Zoning Table [Amd. 49]

‘Short Stay Accommodation’ Use Class amended from ‘X’ to ‘D’ in the ‘Local Centre’ Zone in Table 1 [Amd. 93]

Replacing the number 2 within ‘Regional Centre’ Zone with the number 4 against various Use Classes in Table 1 Zoning Table [Amd. 86]
4.4 **Interpretation of the Table 1 - Zoning Table**

4.4.1 Where a specific use is mentioned in the Table 1 - Zoning Table, it is deemed to be excluded from the general terms used to describe any other use.

4.4.2 If a person proposes to carry out on land any use that is not specifically mentioned in the Table 1 - Zoning Table and cannot reasonably be determined as falling within the type, class or genus of activity of any other use category the Council may -

a) determine that the use is consistent with the objectives of the particular zone and is therefore permitted;

b) determine that the use may be consistent with the objectives of the particular zone and thereafter follow the advertising procedures of Clause 9.4 in considering an application for planning approval; or

c) determine that the use is not consistent with the objectives of the particular zone and is therefore not permitted.

4.5 **Additional Uses**

Despite anything contained in the Table 1 - Zoning Table, the land specified in Schedule 2 may be used for the specific use or uses that are listed in addition to any uses permissible in the zone in which the land is situated subject to the conditions set out in Schedule 2 with respect to that land.

Note: An additional use is a land use that is permitted on a specific portion of land in addition to the uses already permissible in that zone that applies to the land.

4.6 **Restricted Uses**

Despite anything contained in the Table 1 - Zoning Table, the land specified in Schedule 3 may only be used for the specific use or uses that are listed and subject to the conditions set out in Schedule 3 with respect to that land.

Note: A restricted use is the only use or uses that is permitted on a specific portion of land and other uses that would otherwise be permissible in the zone are not permitted.

4.7 **Special Use Zones**

4.7.1 Special use zones are set out in Schedule 4 and are in addition to the zones in the Table 1 - Zoning Table.

4.7.2 A person must not use any land, or any structure or buildings on land, in a special use zone except for the purpose set out against that land in Schedule 4 and subject to compliance with any conditions set out in Schedule 4 with respect to that land.

Note: Special use zones apply to special categories of land use which do not comfortably sit within any other zone in the Scheme.
4.8 Non-Conforming Uses

Except as otherwise provided in the Scheme, no provision of the Scheme is to be taken to prevent -

a) the continued use of any premises for the purpose for which it was being lawfully used immediately prior to the Gazetted date;

b) the carrying out of any development on that land for which, immediately prior to the Gazetted date, an approval or approvals, lawfully required to authorise the development to be carried out, were duly obtained and are current; or

c) subject to Schedule 8 Clause 8.1, the continued display of advertisements which were lawfully erected, placed or displayed prior to the Gazetted date.

Note: “Land” has the same meaning as in the Act and includes houses, buildings and other works and structures.

4.9 Extensions and Changes to a Non-Conforming Use

4.9.1 A person must not -

a) alter or extend a non-conforming use;

b) erect, alter or extend a building used in conjunction with or in furtherance of a non-conforming use; or

c) change the use of land from a non-conforming use to another non-conforming use, without first having applied for and obtained planning approval under the Scheme.

4.9.2 An application for planning approval under Clause 4.9 is to be advertised in accordance with Clause 9.4.

4.9.3 Where an application is for a change of use from an existing non-conforming use to another non-conforming use, the Council is not to grant its planning approval unless the proposed use is less detrimental to the amenity of the locality than the existing non-conforming use and is, in the opinion of the Council, closer to the intended purpose of the zone.

4.10 Discontinuance of Non-Conforming Use

Where a non-conforming use of any land has been discontinued for a period of 6 months the land must not be used after that period otherwise than in conformity with the provisions of the Scheme.

4.11 Termination of a Non-Conforming Use

The Council may effect the discontinuance of a non-conforming use by the purchase of the land, or by the payment of compensation to the owner or occupier or to both the owner and occupier of that land, and may enter into an agreement with the owner for that purpose.

Note: Section 13 of the Act enables the Council to purchase, or, with the consent of the Governor, compulsorily acquire land for the purpose of a town planning scheme, subject to Part 9 of the Land Administration Act 1997, that section and the Scheme.
4.12 **Destruction of Non-Conforming Use Buildings**

If a building used for a non-conforming use is destroyed, demolished or damaged to 75% or more of its value, the building is not to be repaired, rebuilt, altered or added to for the purpose of being used for a non-conforming use or in a manner not permitted by the Scheme, except with the planning approval of the Council.

Note: Destruction of non-conforming residential buildings refer clause 5.3.3

4.13 **Development on No Zoned Land**

Subject to the provisions of clause 8.1.2, where land classified as ‘No Zone’ has been amalgamated with abutting zoned or reserved land, all development shall be in accordance with the standards and requirements of the abutting zoned or reserved land to which it has been amalgamated.
PART 5 - GENERAL DEVELOPMENT REQUIREMENTS

5.1 Compliance with Development Standards and Requirements

5.1.1 Any development of land is to comply with the provisions of the Scheme and have due regard for any relevant Local Planning Policies effective under the Scheme.

5.1.2 Unless otherwise specified in the Scheme development requirements shall be determined by Council having regard to any relevant Local Planning Policies adopted under the Scheme.

5.2 Residential Design Codes

5.2.1 A copy of the Residential Design Codes is to be kept and made available for public inspection at the offices of the City.

5.2.2 Unless otherwise provided for in the Scheme, the development of land for any of the residential purposes dealt with by the Residential Design Codes is to conform with the provisions of those Codes.

5.2.3 The Residential Design Codes density applicable to land within the Scheme area is to be determined by reference to the Residential Design Codes density number superimposed on the particular areas contained within the borders shown on the Scheme Map or where such an area abuts another area having a Residential Design Code density, as being contained within the area defined by the centre-line of those borders.

5.3 Special Application of Residential Design Codes

5.3.1 Except as otherwise required in the Scheme or a Local Planning Policy, non-residential development within the Residential Zone is to comply with the requirements of the relevant R-Code of the Residential Design Codes.

5.3.2 Except as otherwise required in the Scheme or a Local Planning Policy, residential development not in the Residential Zone is to comply with the requirements of multiple dwellings under the R80 R-Code.

5.3.3 Notwithstanding any other provision of the Scheme, where a site has been developed (as approved by the Council) for residential purposes at a greater density than that permitted under the relevant R-Code applicable under the Scheme, the Council may permit the site to be redeveloped up to the same density, provided it is satisfied that the standard of development will be significantly improved as a result.

5.3.4 Notwithstanding the provisions of the Residential Design Codes, where land with a residential density code of R40 is located outside the area of a walkable catchment of 800 metres around an activity centre, specialised centre or railway station on a high frequency rail route as shown on the Scheme Maps or as shown on a map contained in a schedule of the Scheme, the development of multiple dwellings on the land:

   a) shall be subject to the average site area per grouped dwelling requirement specified by the Residential Design Codes for grouped dwellings on land with an R40 residential density code; and

   b) shall not be subject to any maximum plot ratio requirements specified by the Residential Design Codes.
5.4 **Restrictive Covenants**

5.4.1 Subject to Clause 5.4.2, a restrictive covenant affecting any land in the Scheme area by which, or the effect of which is that, the number of residential dwellings which may be constructed on the land is limited or restricted to less than that permitted by the Scheme, is hereby extinguished or varied to the extent that it is inconsistent with the provisions of the Residential Design Codes which apply under the Scheme.

5.4.2 The provisions of Clause 5.4.1 do not apply to any lots contained within the areas defined in Schedule 9.

Note 1 
While it is not proposed that applicants be required to provide an up-to-date copy of the Certificate of Title with every application for planning approval involving more than one dwelling on a lot, applications for planning approval require (under ‘property details’) the identification of any title encumbrances, including restrictive covenants. Where no such covenants have been identified, it will be taken that none are registered on title.

Note 2 
The purpose of restrictive covenants in those areas delineated in Schedule 9 is to restrict the number of dwellings to one on a lot.

5.4.3 Clause 5.4.1 applies whether the restrictive covenant was made before or after the commencement of this Scheme.

5.4.4 The following are hereby extinguished [Amd. 66]:

(a) All restrictive covenants affecting the land comprising Lot 2 (Plan 10178) House 13, Davenport Street, Karrinyup, Western Australia (Certificate of Title Volume 1356 Folio 122) which are registered against the title of the land (Registration No. A883872) pursuant to a deed of restrictive covenant dated 16 September 1974 between the Commissioners of the Rural and Industries Bank of Western Australia and the City of Stirling.

(b) Any and all easements and rights-of-way affecting the land comprising Lot 2 (Plan 10178) House 13, Davenport Street, Karrinyup, Western Australian (Certificate of Title Volume 1356 Folio 122).

5.5 **Variations to Site and Development Standards and Requirements**

5.5.1 Except for development in respect of which the Residential Design Codes apply, if a development is the subject of an application for planning approval and does not comply with a standard or requirement prescribed under the Scheme, the Council may, despite the non-compliance, approve the application unconditionally or subject to such conditions as the Council thinks fit.

5.5.2 In considering an application for planning approval under Clause 5.5.1, where, in the opinion of the Council, the variation is likely to affect any owners or occupiers in the general locality or adjoining the site which is the subject of consideration for the variation, the Council is to -

a) consult the affected parties by following one or more of the provisions for advertising uses under Clause 9.4; and

b) have regard to any expressed views prior to making its determination to grant the variation.

5.5.3 Where:

a) An application for planning approval requires the exercise of Council’s discretion under
clause 5.5.1; and

b) In the opinion of Council, there is significant non-compliance with the standard or requirement;

Council may impose conditions on its approval requiring the provision of specified community facilities at the applicants cost.

Note 1   It is the intention of the Council to require the provision of community facilities where there has been a significant increase in demand for that facility as a direct result of the proposed development.

Note 2   Definition of community facilities is contained within Schedule 1.

5.5.4 The power conferred by Clause 5.5.1 may be exercised only if the Council is satisfied that -

a) approval of the proposed development would be appropriate having regard to the criteria set out in Clause 10.2; and

b) the non-compliance will not have an adverse effect upon the occupiers or users of the development, the inhabitants of the locality or the likely future development of the locality.

5.5.5 Notwithstanding Clause 5.5.4, the power conferred by Clause 5.5.1 may be exercised on the sole ground that non-compliance with the standard or requirement would enable retention of a significant tree on the site of the development. [Amd. 9]

5.6  Environmental Conditions

There are no environmental conditions imposed by the Minister for Environment which apply to the Scheme.

5.7  Development Requirements

5.7.1 Determination of Standards

Where a particular requirement is not readily determined from a study of the Scheme, Residential Design Codes or a Local Planning Policy, such requirement shall be determined by the Council.

5.7.2 Advertisements and Advertising Signs

The placement, erection or display of an advertisement or advertising sign, including:

a) advertising signs that do not require planning approval under clause 8.2.1(o); and

b) the use of any land, building or structure for that purpose,

shall be in accordance with Schedule 8 of the Scheme.

5.7.3 Karrinyup Regional Centre and Karrinyup Civic Centre Special Control Area—Residential Use Street Setbacks

Notwithstanding Condition 4 in Table 1 - Zoning Table of the Scheme, a building containing a residential use on the following land shall be setback from an adjoining road reserve in accordance Figure 5.7.3 of the Scheme -

(a) Lot 66, Street Number 200, Karrinyup Road, Karrinyup; and
5.8 **Cash-in-lieu of Car Parking**

5.8.1 Subject to the remaining provisions of this clause 5.8, an applicant for planning approval for a non-residential development or use may, if Council agrees, make a cash payment to the Council in lieu of providing all or any of the number of car parking spaces required under a Local Planning Policy for the development or use for which planning approval has been sought by the applicant.

5.8.2 Before Council agrees to accept a cash-in-lieu payment under clause 5.8.1, it must have:

a) a reasonable expectation that a cash payment can be applied to provide additional transport infrastructure in the vicinity of the development site.

5.8.3 The amount of the cash-in-lieu payment shall be the cost estimated by Council to provide and construct the number of car parking spaces comprising the difference between the number of car parking spaces required under the Local Planning Policy (as may be varied by Council under clause 5.5.1) and the number of car parking spaces to be provided on the development site. The estimated cost of providing the car parking spaces may include:

---

**Scheme Text**

Part 5, Page 4
a) the cost of land on which the car parking spaces are to be constructed, to be estimated by a licensed valuer appointed by the Council;

b) the cost of constructing the car parking spaces; and

c) the cost of constructing or installing signs, facilities or equipment to regulate the permissible period during which a vehicle may occupy the car parking spaces.

5.8.4 Any costs incurred by Council in estimating the cost of providing the car parking spaces shall be paid by the applicant.

5.8.5 The cash-in-lieu payment shall be payable in such a manner and at such time as Council determines.

5.8.6 If an applicant does not pay the cash-in-lieu payment and the costs referred to in clause 5.8.4 in the manner or at the time determined by Council, Council may revoke the planning approval granted for the development or use to which the cash-in-lieu payment relates.

5.8.7 Cash-in-lieu payments received by a Council under this clause 5.8 shall be paid into appropriate funds to be used for the provision and maintenance of transport infrastructure within reasonable proximity to the development. The cash-in-lieu payment may be used to reimburse Council for any expenses, including loan repayments, which it incurs in providing and maintaining car parking spaces or facilities.

5.8.8 Where this Scheme or a local planning policy made under this Scheme contains provisions concerning the payment of cash-in-lieu of car parking spaces in particular parts of the Scheme area, those provisions shall apply to the exclusion of the provisions of clause 5.8.

5.9 Reciprocal Car Parking

5.9.1 Subject to the remaining provisions of this clause 5.9, where an application for planning approval is made for a non-residential development or use which does not provide the number of car parking spaces required by the Local Planning Policy, Council may permit the car parking spaces for that development or use to be provided jointly with one or more other developments or uses whether or not those other developments or uses have the number of car parking spaces required by the Local Planning Policy.

5.9.2 In considering an application under clause 5.9.1, Council shall be satisfied:

a) that the peak hours of operation of the developments or uses which are the subject of the application and the developments or uses with which it is proposed to jointly provide car parking spaces are different and do not substantially overlap;

b) that the number of car parking spaces to be provided by the development or use which is not the subject of the application does not exceed the number of car parking spaces reasonably anticipated to be in excess of the requirement of that development or use during its off-peak hours of operation; and

c) any other matters which, in the circumstances of a proposed development or use, are considered relevant by Council.

5.9.3 Council may require, and the applicant shall provide, information concerning the matters referred to in clause 5.9.2.
5.9.4 Where Council exercises its discretion under clause 5.9.1, it may require the owner of the land to which the application relates and the owner of the land which is not the subject of the application and which is to provide car parking spaces and any other person specified by the City, to enter into a legal agreement, to which the City may also be a party, which provides for the provision and use of car parking spaces. The legal agreement:

a) must be to Council's satisfaction;

b) must be prepared at the expense of the applicant;

c) must, if required by Council, provide for easements, restrictive covenants, rights of way and reciprocal access and circulation arrangements; and

d) must ensure that the agreement and any easement, restrictive covenant, right of way or reciprocal access and circulation arrangement made under the agreement are not amended, removed or terminated without the prior consent of the Council.

5.9.5 If:

a) a restrictive covenant, easement or right of way is made with respect to any land or building pursuant to an agreement entered into under clause 5.9.4; and

b) that land or building is subject to another restrictive covenant, easement or right of way which:

i) exists for the purpose of regulating the parking, access or circulation of vehicles; and

ii) is inconsistent with the restrictive covenant, easement or right of way referred to in clause 5.9.5(a),

then the restrictive covenant, easement or right of way (as the case may be) referred to in clause 5.9.5(b) is hereby extinguished or varied to the extent that it is inconsistent with the restrictive covenant, easement or right of way referred to in clause 5.9.5(a).

5.10 Parking and Access Plans

5.10.1 Council may prepare a Parking and Access Plan with respect to any land or building for the better provision and coordination of parking, access or circulation of vehicles on that land or within that building or within the area in which the land or building is located.

5.10.2 A Parking and Access Plan may include details as to:

a) the location and form of access to or egress from the land or building;

b) the circulation of vehicles on the land or within the building;

c) the parking of vehicles on the land or within the building; and

d) the integration of parking, vehicle access and circulation with other land or buildings within the area.

5.10.3 A Parking and Access Plan may relate to more than one lot, building or survey or survey strata lot.
5.10.4 A Parking and Access Plan may extinguish or vary any restrictive covenant, easement or right of way. The extinguishment or variation of the restrictive covenant, easement or right of way shall take effect upon adoption of the Parking and Access Plan by Council under clause 5.10.7(b).

5.10.5 Council may give notice of a Parking and Access Plan in one or more of the ways referred to in clause 9.4.3 as if the Parking and Access Plan was an application for planning approval.

5.10.6 Any person may inspect the Parking and Access Plan referred to in the notice and any material accompanying that Parking and Access Plan at the offices of the Council.

5.10.7 After the expiry of the period within which submissions may be made, the Council is to:

a) review the proposed Parking and Access Plan in light of any submissions made; and
b) resolve to adopt the Parking and Access Plan with or without modifications or not to proceed with the Parking and Access Plan.

5.10.8 If Council resolves to adopt the Parking and Access Plan, it is to publish notice of the Parking and Access Plan once in a newspaper circulating in the Scheme area.

5.10.9 A Parking and Access Plan may be modified in the same manner as a Parking and Access Plan is prepared and adopted under clauses 5.10.1 to 5.10.8.

5.10.10 Council shall have due regard to a Parking and Access Plan which affects any land or building which is the subject of an application for planning approval.

5.11 **Ceding of Rights-Of-Way Widening**

The owner of any site affected by a right of way widening under the Local Planning Policy relating to Right of Ways shall cede such right of way widening free of cost as a condition of development approval or as a condition of subdivision or strata subdivision supported by the Council.

5.11A Where part of a lot within a Development Contribution Area has been transferred free of costs to the Crown for the purpose of widening a road or Right of Way, the area ceded shall be added to the area of the lot for the purpose of calculating the minimum and average site area in determining development potential. [Amd. 5]

5.12 **Requirement to Prepare a Detailed Area Plan**

Council may require the preparation of a Detailed Area Plan for any lot or lots in accordance with Clause 6A.16. All Development on land the subject of an adopted Detailed Area Plan is to comply with that Detailed Area Plan. [Amd. 13]

5.13 **Trees and Development [Amd. 9]**

5.13.1 **Purpose**

The purpose of this clause is to require the retention of significant trees or planting of new trees on:
a) zoned land which is the subject of an application for development approval under the Scheme and on road reserves abutting that zoned land.

5.13.2 Objectives

a) To promote development that enables existing significant trees to be retained on zoned land and to protect existing street trees on abutting road reserves.

b) To minimise the removal of significant trees on zoned land and street trees on abutting road reserves as a consequence of development; and

c) To ensure suitable advanced trees of appropriate size and maturity are planted where, on-site significant trees and street trees on abutting road reserves, have been removed or do not exist.

5.13.3 Development

a) The retention of significant trees may be imposed as a condition of development approval.

b) Where the Council approves development on a site which, at the time does not contain a significant tree or involves the removal of a significant tree from the site, the Council may, as a condition of development approval, require advanced trees approved by the Council to be planted in particular locations on the site at a maximum ratio of one advanced tree for every 500m² (or part thereof) of the site's area. Where this ratio is inconsistent with the maximum ratio specified by a Local Planning Policy, Structure Plan or Local Development Plan which applies to the particular site or the area in which the site is located, the Council may vary the maximum ratio specified above having due regard to the maximum ratio of that Local Planning Policy, Structure Plan or Local Development Plan.

c) Where the Council approves development on a site with a condition of development approval requiring the retention of a significant tree or the planting of an advanced tree, the Council may, as a condition of development approval, require adequate surrounding soil space at ground level around each tree to sustain its health and growth.

d) The Council may impose a condition of development approval to require the planting of an advanced tree, at the applicant's cost, on an abutting road reserve.

6.2 Careniup Swamp Special Control Area

Note: In addition to the following provisions, the provisions of Clause 6A and Schedule 10 also apply to the Careniup Swamp Special Control Area

6.2.1 Objectives

a) To ensure orderly subdivision of the Special Control Area;
b) To ensure the ceding of Public Open Space;
c) To ensure water quality standards;
d) To ensure wildlife protection;
e) To control filling; and
f) To manage stormwater.

6.2.2 Special Control Area

The Careniup Swamp Special Control Area ("the Area") is all that land delineated on the Scheme Maps. In broad terms it is bounded by Balcatta Road, Mitchell Freeway, Erindale Road and North Beach Road.
6.2.3 Implementation of Development Proposals

a) All subdivision and development within the Area shall have regard to the requirements set out in clause 6.2 and the Rehabilitation Plan provided however that any development proposal not in conformity with clause 6.2 may be carried out with the approval of Council. Council may seek input from the Western Australian Planning Commission, Water Corporation and the Department of Environment and Conservation.

b) When considering any application for approval to commence development, subdivision, strata subdivision or the amendment of the Scheme within the Area, the Council and the applicant shall have due regard to the provisions contained within clause 6.2.

c) When considering any application for subdivision or strata subdivision approval within the Area, the Council shall inform the Western Australian Planning Commission of the Rehabilitation Plan and the Rehabilitation Strategy, particularly when determining any public open space contribution required as a condition of a subdivision or a strata subdivision approval.

6.2.4 Ceding of Land & Cash Payments in Lieu

a) Upon any amendment of the Scheme in respect of land within the Area, or the granting of approval to subdivide any land within the Area, whichever shall first occur, the following provisions shall take effect:

i) Where any portion of land is within the Core Area delineated on the Rehabilitation Plan, such portion shall be ceded to the State for vesting in the City by the owner free of costs and without any entitlement on the part of the owner or any other person with any interest therein to be paid compensation pursuant to the Public Works Act otherwise;

ii) If no portion of the land is within the Core Area delineated by the Rehabilitation Plan, the owner of such land shall pay to the City a sum equal to ten per centum (10%) of the market value of the land calculated as at the date of the gazettal of the amendment, the granting of approval to subdivide such land, or the granting of approval to commence development on such land as the case may be.

6.2.5 Water Quality Standards

a) Objectives

The Careniup Swamp and adjacent area is utilised by the Water Corporation as a compensating basin and it is important to maintain sufficient capacity of not less than 26,000 cubic metres within the Core Area as a modified wetland to satisfy drainage and compensation requirements. It is also vital for wildlife retention to retain permanent water throughout the Area of modified wetland, with minimum summer depths being sufficient to maintain landscape and water quality.

b) Development and Subdivision Criteria

In order to satisfy the objectives set out in the preceding sub-clause hereof, development shall conform with the following criteria and Council will recommend to the Commission in responding to a subdivision application that:
6.2.7

i) The lake be designed on the basis that the area has a maximum water level of RL 7.0 metres AHD and a minimum water level of RL 6.3 metres AHD; and

ii) The moat and lake beds referred to in the Rehabilitation Plan shall be constructed to RL 4.1 metres AHD in order to maintain a minimum water depth of 1.0 metre during the summer period.

6.2.6 Wildlife Protection Requirements

a) Objectives

Although the number and diversity of wildlife habitats has declined in past years in the Area due to filling of the Careniup Swamp at the margin, it is considered essential to reverse this trend and maximise the length of vegetated wetland foreshore, establish a system of islands within the modified wetland of the Core Area, maximise shading of water surfaces and conversely limit the extent of unshaded open water, control access to the wildlife/bird habitat areas and maximise habitat availability for water and roosting birds (with particular preference to perching and wading birds rather than swimming birds).

b) In order to satisfy the objectives set out in the preceding sub-clause hereof, the following criteria or requirements shall apply:

i) Satisfactory provision must be made when it is practical and feasible to do so, for planting of foreshore areas by Council with native vegetation species listed in the Dames & Moore Report "Conceptual Development Plan for the Area within the System 6 Boundary - Careniup Swamp" (November 1987), with particular emphasis on the Paperbark (Melaleuca Raphiophylla) and Flooded Gum (Eucalyptus Rudis); and

ii) Four islands specified in the Rehabilitation Plan shall, when it is practical and feasible to do so, be constructed by Council and planted with native vegetation species as determined in the Design and Management Plan.

iii) The timing of the aforementioned works shall be specified in the Design and Management Plan.

Note: The Design and Management Plan is to be prepared and adopted by Council to outline the location of the islands, plantings, and other relevant works in accordance with clause 6.2.8 (b).

6.2.7 Maintenance of The Core Area

a) Objectives

In order to satisfy the objectives set out in the two preceding clauses hereof, the Core Area delineated in the Rehabilitation Plan must not be the subject of indiscriminate filling and infiltration of nutrients and the integrity of the Core Area as a whole must be maintained.

b) In order to satisfy the objectives set out in the preceding sub-clause hereof, the following criteria or requirements shall apply in respect of development within the Area:

i) No person shall fill or deposit or cause to be filled or deposited any substance in the Core Area delineated in the Rehabilitation Plan except in accordance with a development plan approved by the Council and the Western Australian Planning Commission in consultation with the Water Corporation and the Environmental Protection Authority;
ii) Council shall recommend to the Western Australian Planning Commission that stormwater from subdivisions should be disposed of on site to the extent that a one in ten year storm event is retained for three to four days;

iii) Subdivision design should be in accordance with the principles and practices detailed in the “Planning and Management Guidelines for Water Sensitive Urban (Residential) Design”, published by the Western Australian Planning Commission in June 1994.

6.2.8 Rehabilitation Programme

a) Objectives

The Core Area delineated in the Rehabilitation Plan is proposed to ultimately be vested in the Council, which intends to rehabilitate it in an orderly and comprehensive manner in accordance with the Rehabilitation Plan. A Design and Management Plan for the entire Core Area is to be prepared by the Council addressing issues such as midge and mosquito control, moat depth profiles, peat removal for housing and stormwater drainage prior to commencement of rehabilitation works.

b) The Design and Management Plan shall be prepared when sufficient land in the Core Area has been ceded to the Crown and vested in the Council to enable rehabilitation to commence in an orderly manner or at such earlier time as determined by Council.

c) In respect of those portions of the Core Area ultimately vested in the Council, it shall be the responsibility of the Council to carry out over time the rehabilitation of the Core Area referred to in the Rehabilitation Plan.

*Note: The above Water Quality Protection Note identifies three levels of compatibility for land uses, namely: Incompatible (generally not acceptable); Conditional (may be acceptable subject to conditions); and Compatible (generally acceptable provided the use is conducted within the bounds of acceptable environmental practice).*

### 6.5.4 Approval

In respect to the Gwelup Water Protection Area Special Control Area the Council may refuse any application for planning approval or impose conditions on any planning approval so as to:

a) protect the resource; and

b) require the registration of notification on title giving notice of any limitations or constraints associated with the protection of resources.

*Note: There is a general presumption against development or use of land, which is not compatible with Public Drinking Water Source Areas or which involves a significant risk to the resource. The onus will be on the proponent of development to demonstrate that the proposed activity will not prejudice the resource.*

### 6.6 Heritage Protection Area Special Control Area

[Amd. 76]

Note: Partial demolition of a building in a Residential zone within the Heritage Protection Area Special Control Area will be considered as part of the assessment of a development application for additions or alterations to the building.

Partial demolition will be assessed in the context of the following objectives:

- To conserve and retain buildings within the Heritage Protection Area dating from the early 1900s to the 1950s where the architectural style of the building is generally intact.

‘Infrastructure Costs’ means such costs as are reasonably incurred for the acquisition and construction of infrastructure.

‘Owner’ means an owner of land that is located within a development contribution area.

6B.2 Purpose

The purpose of having Development Contribution Areas is to:

a) Provide for the equitable sharing of the costs of Infrastructure and Administrative Costs between Owners;
b) Ensure that Cost Contributions are reasonably required as a result of the subdivision and development of land in the Development Contribution Area; and
c) Coordinate the timely provision of Infrastructure.

6B.3 Development Contribution Plan Required

A Development Contribution Plan is required to be prepared for each Development Contribution Area.

6B.4 Development Contribution Plan Part of Scheme

The development contribution plan is incorporated in schedule 11 and 11A as part of this scheme.

6B.5 Subdivision, Strata Subdivision and Development

The Council shall not withhold its support for subdivision, strata subdivision or refuse to approve a development solely for the reason that a development contribution plan is not in effect, there is no approval to advertise a development contribution plan, or that there is no other arrangement with respect to an owner's contribution towards the provision of community infrastructure.

6B.6 Guiding Principles for Development Contribution Plans

The Development Contribution Plan for any Development Contribution Area is to be prepared in accordance with the following principles:

a) Need and Nexus
   The need for the infrastructure included in the plan must be clearly demonstrated (need) and the connection between the development and the demand created should be clearly established (nexus).

b) Transparency
   Both the method for calculating the development contribution and the manner in which it is applied should be clear, transparent and simple to understand and administer.

c) Equity
   Development contribution should be levied from all developments within a development contribution area, based on their relative contribution to need.

d) Certainty
   All development contributions should be clearly identified and methods of accounting for cost adjustments determined at the commencement of a development.

e) Efficiency
   Development contributions should be justified on a whole of life capital cost basis consistent with maintaining financial discipline on service providers by precluding over recovery of costs.
f) Consistency
   Development contributions should be applied uniformly across a development
   contribution area and the methodology for applying contributions should be
   consistent.

   g) Right of consultation and review
   Owners have the right to be consulted on the manner in which development
   contributions are determined. They also have the opportunity to seek a review by an
   independent third party if they believe the calculation of the costs of the contributions
   is not reasonable.

   h) Accountable
   There must be accountability in the manner in which development contributions are
   determined and expended.

6B.7 Recommended Content of Development Contribution Plans

6B.7.1 The development contribution plan is to specify:

a) the development contribution area to which the development contribution plan
   applies;

b) the infrastructure and administrative items to be funded through the
   development contribution plan;

c) the method of determining the cost contribution of each owner; and

d) the priority and timing for the provision of infrastructure.

6B.8 Period of Development Contribution Plan

A development contribution plan shall specify the period during which it is to operate.

6B.9 Land Excluded

In calculating both the area of an Owner’s land and the total area of land in a Development
Contribution Area, the area of land provided in that Development Contribution Area for:

a) roads designated under the Metropolitan Region Scheme as primary roads and other
   regional roads;

b) existing public open space;

c) existing government primary and secondary schools; and

d) such other land as is set out in the development contribution plan,

is to be excluded.

6B.10 Development Contribution Plan Report and Cost Apportionment
   Schedule

6B.10.1 Within 90 days of the development contribution plan coming into effect, the Council is to
   adopt and make available a development contribution plan report and cost apportionment
   schedule to all owners in the development contribution area.

6B.10.2 The development contribution plan report and the cost apportionment schedule shall set
   out in detail the calculation of the cost contribution for each owner in the development
   contribution area, based on the methodology provided in the development contribution
   plan, and shall take into account any proposed staging of the development.
6B.10.3 The development contribution plan report and the cost apportionment schedule do not form part of the scheme, but once adopted by the Council they are subject to review as provided under clause 6B.11.

6B.11 **Cost Contributions Based on Estimates**

6B.11.1 The determination of Infrastructure Costs and Administrative Costs is to be based on amounts expended, but when expenditure has not occurred, it is to be based on the best and latest estimated costs available to the Council and adjusted accordingly, if necessary.

6B.11.2 Where a Cost Apportionment Schedule contains estimated costs, such estimated costs are to be reviewed at least annually by the Council:

a) In the case of land to be acquired, in accordance with clause 6B.12; and

b) In all other cases, in accordance with the best and latest information available to the Council,

until the expenditure on the relevant item of Infrastructure or Administrative Costs has occurred.

6B.11.3 The Council is to have such estimated costs independently certified by appropriate qualified persons and must provide such independent certification to an owner when requested to do so.

6B.11.4 Where any Cost Contribution has been calculated on the basis of an estimated cost, the Council:

a) Is to adjust the Cost Contribution of any Owner in accordance with the revised estimated costs; or

b) May accept a Cost Contribution, based upon estimated costs, as a final Cost Contribution and enter into an agreement with the Owner accordingly.

6B.11.5 Where an Owner’s Cost Contribution is adjusted under clause 6B.11.4, the Council, on receiving a request in writing from an Owner, is to provide the Owner with a copy of estimated costs and the calculation of adjustments.

6B.11.6 If an Owner objects to the amount of a Cost Contribution, the Owner may give notice to the Council requesting a review of the Cost Contribution by an appropriate qualified person ('independent expert') agreed by the Council and the Owner at the Owner’s expense, within 28 days after being informed of the Cost Contribution.

6B.11.7 If the independent expert does not change the Cost Contribution to a figure acceptable to the Owner, the Cost Contribution is to be determined:

a) by any method agreed between the Council and the Owner; or

b) if the Council and the Owner cannot agree on a method pursuant to (a) or on an independent expert, by arbitration in accordance with the *Commercial Arbitration Act 1985*, with the costs to be shared equally between the Council and Owner.
6B.12 Valuation

6B.12.1 Clause 6B.12 applies in order to determine the value of land to be acquired for the purpose of providing infrastructure.

6B.12.2 In clause 6B.12:

'Value' means the fair market value of land, at a specified date, which is defined as the capital sum that would be negotiated in an arms length transaction in an open and unrestricted market, assuming the highest and best use of the land with all its potential and limitations (other than the limitation arising from the transaction for which the land is being valued), wherein the parties act knowledgeably, prudently and without compulsion to buy or sell.

The value of land is to be determined according to the methodology outlined in State Planning Policy 3.6 “Development Contributions for Infrastructure” and accompanying Guidelines.”

'Valuer' means a licensed valuer agreed by the Council and the owner, or, where the Council and the owner are unable to reach agreement, by a valuer appointed by the President of the Western Australian Division of the Australian Property Institute.

6B.12.3 If an owner objects to a valuation made by a valuer, the owner may give notice to the Council requesting a review of the amount of the value, at the owner's expense, within 28 days after being informed of the value.

6B.12.4 If, following a review, the valuer's determination of the value of the land is still not a figure acceptable to the owner, the value is to be determined:

a) by any method agreed between the Council and the owner; or
b) if the Council and the owner cannot agree, the owner may apply to the State Administrative Tribunal for a review of the matter under part 14 of the Planning and Development Act 2005.

6B.13 Liability for Cost Contributions

6B.13.1 An owner must make a cost contribution in accordance with the applicable development contribution plan and the provisions of clause 6B.

6B.13.2 An owner's liability to pay the owner's cost contribution to the Council arises on the earlier of:

a) the Western Australian Planning Commission endorsing its approval on the deposited plan or survey strata plan of the subdivision of the owner's land within the development contribution area;
b) the commencement of any development on the owner's land within the development contribution area;
c) the approval of any strata plan by the Council or Western Australian Planning Commission on the owner's land within the development contribution area; or
d) the approval of a change or extension of use by the Council on the owner's land within the development contribution area.

The liability arises only once upon the earliest of the above listed events.
6B.13.3 Notwithstanding clause 6B.13.2 and subject to a provision in a development contribution plan to the contrary, an owner's liability to pay the owner's cost contribution does not arise if the owner commences development of the first single house or outbuildings associated with that first single house on an existing lot which has not been subdivided or strata subdivided since the coming into effect of the development contribution plan.

6B.13.4 Where a development contribution area expires in accordance with clause 6B.8, an owner's liability to pay the owner's cost contribution under that development contribution plan shall be deemed to continue in effect and be carried over to any subsequent development contribution plan which includes the owner's land, subject to such liability.

6B.14 Payment of Cost Contribution

6B.14.1 The Owner, with the agreement of the Council, is to pay the Owner's Cost Contribution by:
- a) cheque or cash;
- b) transferring to the Council or a public authority land in satisfaction of the cost contribution;
- c) the provision of physical infrastructure;
- d) some other method acceptable to the Council; or
- e) any combination of these methods.

6B.14.2 The Owner, with the agreement of the Council, may pay the Owner's Cost Contribution in a lump sum, by instalments or in such other manner acceptable to the Council.

6B.14.3 Payment by an owner of the cost contribution, including a cost contribution based upon estimated costs in a manner acceptable to the Council, constitutes full and final discharge of the owner's liability under the development contribution plan and the Council shall provide certification in writing to the owner of such discharge if requested by the owner.

6B.15 Charge on Land

6B.15.1 The amount of any Cost Contribution for which an Owner is liable under clause 6B.13, but has not paid, is a charge on the Owner's land to which the Cost Contribution relates, and the Council may lodge a caveat, at the Owner's expense, against the Owner's certificate of title to that land.

6B.15.2 The Council, at the Owner's expense and subject to such other conditions as the Council thinks fit, can withdraw a caveat lodged under clause 6B.15.1 to permit a dealing and may then re-lodge the caveat to prevent further dealings.

6B.15.3 If the Cost Contribution is paid in full, the Council, if requested to do so by the owner and at the expense of the Owner, is to withdraw any caveat lodged under clause 6B.15.

6B.16 Administration of Funds

6B.16.1 The Council is to establish and maintain a reserve account in accordance with the Local Government Act 1995 for each Development Contribution Area into which Cost Contributions for that Development Contribution Area will be credited and from which all payments for the Infrastructure costs and Administrative Costs within that Development Contribution Area will be paid. The purpose of such a reserve account or the use of money in such a reserve account is limited to the application of funds for that Development Contribution Area.
6B.16.2 Interest earned on Cost Contributions credited to a reserve account in accordance with clause 6B.16.1 is to be applied in the Development Contribution Area to which the reserve account relates.

6B.16.3 The Council is to publish an audited annual statement of accounts for that development contribution area as soon as practicable after the audited annual statement of accounts becomes available.

6B.17 Shortfall or Excess in Cost Contribution

6B.17.1 If there is a shortfall in the total of Cost Contributions when all Cost Contributions have been made or accounted for in a particular Development Contribution Area, the Council may:

   a)    make good the shortfall;
   b)    enter into agreements with owners to fund the shortfall; or
   c)    raise loans or borrow from a financial institution,

   but nothing in paragraph 6B.17.1 (a) restricts the right or power of the Council to impose a differential rate to a specified development contribution area in that regard.

6B.17.2 If there is an excess in funds available to the development contribution area when all cost contributions have been made or accounted for in a particular development contribution area, the Council is to refund the excess funds to contributing owners for that development contribution area. To the extent, if any, that it is not reasonably practicable to identify owners and/or their entitled amount of refund, any excess in funds shall be applied, to the provision of additional facilities or improvements in that development contribution area.

6B.18 Powers of the Council

The Council in implementing the Development Contribution Plan has the power to:

   a)    acquire any land or buildings within the Scheme area under the provisions of the Planning and Development Act 2005; and
   b)    deal with or dispose of any land which it has acquired under the provisions of the Planning and Development Act 2005 in accordance with the law and for such purpose may make such agreements with other owners as it considers fit.

6B.19 Arbitration

Subject to clauses 6B.12.3 and 6B.12.4, any dispute between an Owner and the Council in connection with the Cost Contribution required to be made by an Owner is to be resolved by arbitration in accordance with the Commercial Arbitration Act 1985.

If it is not reasonably practicable to give the written notice in one of these ways, it may be given in any way provided for by Section 9.52(2) and (3) of the Local Government Act 1995.

7.7.4 If the person to whom the written notice is given under Clause 7.7.2 fails to carry out the required repairs within the time specified in the written notice, the local government may itself enter the place and undertake the repairs.

### Advertising Sign Definitions

Definitions for advertising signs are contained within Schedule 1 of the Scheme.

### Sign Zoning Table

#### 4.1
Subject to the provisions of the Scheme, the Advertising Sign Zoning Table prescribes the advertising sign types which may be permitted (P) in each zone. The applicability is determined by cross reference between the list of "Sign Types" on the left hand side of the Table and the list of "Zones" on the top of the Table.

#### 4.2
Where a lot has a non-conforming use in accordance with the provisions of the Scheme, the Sign Zoning Table does not apply in order to prescribe the advertising sign types which may be permitted. The Council shall determine in each case which sign is permitted or not permitted.
If a person proposes to erect any sign of a type that is not specifically listed in the Advertising Sign Zoning Table and cannot reasonably be determined as falling within one of the listed advertising sign definitions, the Council may determine the advertising sign -

a) is consistent with the objectives of the particular zone and is permitted;
b) is not consistent with the objectives of the particular zone and is not permitted.

</tbody>
</table>

**Relationship with Other Planning Instruments:**

- The development contribution plan generally conforms to the:
  - City of Stirling Rights of Way Management Strategy (as amended).
  - City of Stirling Local Planning Policy 6.5 ‘Development Abutting Rights of Ways’.
  - Rights of Way Improvement Works Table as included in the Development Contribution Plan Report, and ROW Maps 1, 2 and 3.

**Infrastructure and Administrative Items to be Funded:**

- The rights of way or laneways to be upgraded in this plan, together with the nature of upgrade works to be completed for each right of way or laneway, are shown delineated on the *Rights of Way Improvement Works Table*.

  The following infrastructure items are to be funded by cost contributions:
  - Road construction;
  - Kerbing;
  - Site clearing and preparation;
  - Crossovers;
  - Retaining walls;
  - Stormwater drainage;
  - Street lighting and electrical;
  - Works incidental or ancillary to these other infrastructure items;
  - Borrowing costs;

  The infrastructure items referred to above include those carried out, contracted or undertaken by the City whether before or after the development contribution plan to which they relate is incorporated in Schedule 11A and those infrastructure items proposed to be carried out, contracted or undertaken by the City.

**Method for Calculating Contributions:**

- In relation to development or subdivision of land within the Development Contribution Area, a cost contribution is not required to be paid in the following circumstances:
  - the Owner or preceding Owner of the land has constructed the ROW or laneway at its own expense to the City’s satisfaction, in which case a cost contribution for Lighting Cost only is required;
  - the Owner or preceding Owner of the land has paid a cash contribution determined by the City based on the estimated cost of constructing the ROW or laneway at the time of the payment, in which case a cost contribution for Lighting Cost only is required;
  - the ROW or laneway adjacent to the land has been constructed to the City’s satisfaction at the expense of neither the City nor the Owner, in which case a cost contribution for Lighting Cost only is required;

... *continued next page*
• the development is a minor addition or modification to an existing development where the addition or modification is valued at $100,000 or less which value shall be adjusted from time to time by Council to reflect construction cost inflation, and there is no proposed new access nor modification to an existing access to the ROW or laneway from the land;

• the development is the erection of a patio or pergola (as defined in the R-Codes) or shade sail for residential purposes;

• the development is the erection of or modification to a boundary fence or retaining wall;

• the development is solely demolition.

Corner Lots
The Owner of land adjacent to and sharing a common boundary with more than one ROW or laneway identified in the Development Contribution Area shall only be required to make a cost contribution based on the ROW or laneway with which the Owner's land shares the rear boundary.

Strata Lots
Where land the subject of a strata plan or survey-strata plan is situated adjacent to and shares a common boundary with a ROW or laneway, the Owner of lots shown on the strata plan or survey-strata plan are liable to pay equal shares of the cost contribution for the land comprising the strata plan or survey-strata plan. Where a strata lot is the only land in the strata plan adjacent to and sharing a common boundary with a ROW or laneway, the Owner of that lot will be solely liable to pay the cost contribution.

Cost Contribution Calculation
An Owner's cost contribution shall be determined on the basis of estimated infrastructure costs and calculated with reference to the "Nature of Upgrade" indicated for the relevant laneway abutting the development or subdivision on the Rights of Way Improvement Works Table, the Construction Rate and/or the Lighting Rate and the boundary of the Owner's lot abutting the laneway using the following method:

Construction Cost (A):
   Length of Lot, strata plan or survey-strata plan boundary to laneway (m) x Construction Rate ($ per linear m)

Lighting Cost (B):
   Length of Lot, strata plan or survey-strata plan boundary to laneway (m) x Lighting Rate ($ per linear m)

Total Cost Contribution = (A) + (B)

Where:-

"Length of Lot, strata plan or survey-strata plan boundary to laneway (m)" is the surveyed boundary of the lot, strata plan or survey-strata plan abutting the laneway and shown on the relevant survey plan lodged at Landgate;

"Construction Rate" is the estimated infrastructure cost, per linear metre of lot frontage, for constructing and draining a laneway;

"Lighting Rate" is the estimated infrastructure cost, per linear metre of lot frontage, for installing lighting in a laneway.
### Payment of Cost Contribution:

Unless an agreement is entered into under clause 6B.14.2, an owner must pay a cost contribution within 60 days of the event which under clause 6B.13.2 gave rise to the liability to pay the cost contribution or at such other time as is specified by a condition of development approval issued by the City of the commencement of development.

### Interest on Unpaid Cost Contributions:

(a) Interest shall be paid on any cost contribution which is due at the maximum rate of interest prescribed for the purposes of section 6.13 of the *Local Government Act 1995*.

(b) Interest payable on any cost contribution or portion of a cost contribution (as the case may be) shall be paid from the date an owner becomes liable.

### Period of Operation:

20 years from the date of gazettal.

### Priority and Timing:

In accordance with the adopted Rights of Way Management Strategy and the laneway upgrade works program determined by the City.

### Review Process:

The Development Contribution Plan will be reviewed when considered appropriate, but at a time that is no longer than 5 years after the date of gazettal of this amendment.
