The following Conditions of Issue and Use apply to all Parking Permits issued by the City of Stirling.

### Part A: How will a Parking Permit benefit me?

Recognising the impacts that parking has on residents, the City of Stirling has introduced a Parking Permit Policy which is aimed at helping to address existing and potential parking problems in and around high parking demand areas.

Parking Permits will enable residents or their visitors to park within specified streets for periods longer than indicated on parking control signage. Permits will only be available to eligible residents. You may obtain a copy of the Parking Permit Policy by visiting our website at [www.stirling.wa.gov.au](http://www.stirling.wa.gov.au)

### Part B: Eligibility Criteria

**You may be eligible for a Resident and/or Transitional Parking Permit if:**

- You are a resident of the City of Stirling.
- You reside in an area determined by the City to be a high demand parking area where permits are required.
- The vehicle for which you intend to use the permit is not a commercial vehicle (with a tare weight greater than 2,500 kilograms), a trailer, truck, caravan, bus, bicycle or tractor.
- You have fewer than two parking spaces on the premises you occupy.
- You have more vehicles than parking spaces.

### Part C: Number of Permits

The following table outlines the number of Resident and /or Transitional Parking Permits available to eligible residents.

On-site parking spaces	Owner properties (maximum entitlement)	Non-owner properties (maximum entitlement)
<b>0</b>	2 Resident,	3 Transitional
	1 Transitional	
<b>1</b>	1 Resident,	2 Transitional
	1 Transitional	
<b>2</b>	0 Resident,	1 Transitional
	1 Transitional	
<b>3 or more</b>	0	0

An on-site parking space includes areas constructed for the purposes of parking a vehicle including all driveways, carports and garages located within the private property.

A Transitional Parking Permit may be issued for a period of up to 12 months. Non-owners must reapply at the end of their tenancy agreement or annually if no official tenancy agreement is in place.

### Part D: Conditions of Issue and Use

1. A Parking Permit must be displayed so that it is clearly visible from the front of the vehicle.
2. The clear display of a valid Parking Permit in a vehicle provides an exemption from complying with parking time restrictions of two (2) hours or greater that may apply within streets or parking area(s) specified on the permit.
3. Subject to point two above, the display of a valid Parking Permit in a vehicle does not revoke the requirement to comply with all other parking legislation, prohibitions and signage restrictions. Permits do not enable motorists to park illegally, for example contrary to signage, over footways or on other residents' verges without consent. Penalties may apply.
4. Parking Permits are not valid for use in areas other than those specified on the permit, nor can they be used in Ticket Parking areas where parking fees are payable.
5. When a Parking Permit holder no longer resides at the property for which the permit(s) were issued, those permits become invalid.
6. A Resident Parking Permit is only valid until the date of expiry. Resident Parking Permits expire on 31 December of the year of issue.
7. The use of an invalid permit will be subject to enforcement under the City's Parking Local Law and infringements may be issued.
8. Parking Permits will not be issued for and are not to be used on a vehicle which is classified as any of the following: a commercial vehicle (with a tare weight greater than 2,500 kilograms), a caravan, a bus, a truck, bicycle, a tractor or a trailer.
9. Parking Permits can only be used by residents or persons visiting the property to which the permit was issued.
10. The number and type of Parking Permits issued by the City will be reviewed periodically in response to changes that may occur in an area or in order to better manage parking. The review may result in changes to eligibility, the number of permits issued, conditions of use and any applicable costs.
11. Transitional Parking Permits may be issued for a period of up to 12 months.
12. The City will reissue Resident Parking Permits annually to existing permit holders prior to the permit's expiry date (excludes Transitional Parking Permits).
13. A \$30 fee may apply to replacement permits if they are lost, stolen or misplaced.
14. Permits do not guarantee parking space availability.
15. Failure to comply with the Conditions of Issue and Use may result in the cancellation of the Parking Permit(s) and the issuing of an infringement notice carrying a penalty.
16. The personal information requested on this form is being collected for the purpose of updating our database and will be used solely by the City of Stirling to provide services to you.
