

Commercial Waste Services

The City of Stirling offers businesses located within the City, a high quality commercial waste service that is flexible and highly competitive.

What are the benefits to your business?

The City only services businesses located within Stirling, offering a number of benefits to consumers.

Free consultation for tailored services

The City provides a free consultation service to customers, to ensure the commercial waste service can be tailored to each customer.

Fixed prices, no hidden costs

All fees are set for twelve months and have no extra hidden costs. This transparent pricing structure means that there are no surprises in our fees such as bin rental charges.

No contracts so you're not locked in

The City prides itself on retaining customers through the delivery of a quality service. As such, we believe there is no need for long term contracts and do not lock our customers in for fixed periods of time.

Your choice of bins

The City provides a range of services for general waste and co-mingled recycling.

Bins provided by the City are well maintained and presented and are regularly replaced as required.

The City offers 240, 360, 660 and 1100 litre general waste and recycling bins to meet your waste management requirements.

Did you know that improperly-sorted waste costs four times as much to recycle?

For tips on what you can and cannot recycle visit www.stirling.wa.gov.au/recycling

Collection options

Businesses using the City's waste services receive a choice of collection schedules all year round, Monday to Saturday.

Co-mingled recycling bin

The City can provide a co-mingled recycling service to local businesses. This benefits local businesses by saving them money, and diverting tonnes of waste that would usually go to landfill. It is a simple recycling system where most recyclable items can go in the same bin.

Benefits to local businesses

- Save money and divert tonnes of waste that would usually go to landfill
- Simple recycling system – most recyclable materials can go in the same bin.

Promotion

The City of Stirling is one of the most successful Western Australian local governments in minimising waste going to landfill and maximising recycling.

As a customer, you will be seen to be environmentally friendly as well as supporting the local community.

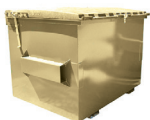

For a professional service that also benefits the environment and community, the City of Stirling is the best choice.

Which bins are serviced?

The City services a broad range of bins, ensuring that the needs of each individual business can be met.

Bin type: rolltop – general waste
